 Accounts Receivable (AR)
 Accounts Payable (AP)

Designed to fit, meet and solve your financial operations. The system provides endless **collaboration of financial and inventory information** to provide you with the necessary tools to run your business efficiently and effectively and helps organization to continuously improve financial operations.

a. Complete audit trail for auditing and tracing purposes

b. Perform house keeping of historical data periodically.

c. The system will generate the necessary SST details when user specified which items are to be included SST.

Inventory System is to record the cost and the movement of the goods.

MecWise Inventory Subsystem is designed to maintain the master records, perform inventory control, on-screen inquiry, generate reports and other functions supporting the administration of the stock. The System generates various inventory reports for management analysis about inventory sales and turnover performance. From the system you can identify the performance of the inventory items without much delay and have better control over your current assets.

Fixed Asset (FA) module is designed to help monitor fixed assets of the organization, accounting for and managing their fixed assets. The main objective of module is to provide complete management control over fixed assets and to eliminate time and effort normally associated with this task. The module serves as an asset register and monitoring tool for tracking maintenance agreements.

In addition, the module enables users to determine cost effectiveness between incurring further repair and maintenance cost and cost of replacement. Some of the functional features of the fixed asset system are:

- a. Provides a complete inventory of fixed assets, including location code and asset group code
- b. Provides three most common depreciation methods that can be specified for an asset
- c. Schedules for maintenance service, as well as monitor repair of fixed asset details
- d. FA module automatically calculates amount of depreciation to be expensed for each asset
- e. Other automatic transactions are generated whenever new assets are added, disposed, reclassified or adjusted

testimonials

" Our company business has been expanding exponentially these couple of years and our existing system can't really cope with the growth our company is experiencing , fortunate enough we came across StarVision that able to help us implement a complete ERP system to help us spur our company to another level "

- Mr Tan , HR Dept

Our company started off as small company with only 12 employees . Nevertheless , the cost of implementing StarVision is so affordable that we can use their platform and ecosystem to expand our business. Now in the 3rd year using StarVision system , we grown to more than 50 employees .

- Norhasa , HR Dept

" Our company business has been expanding exponentially these couple of years and our existing system can't really cope with the growth our company is experiencing , fortunate enough we came across StarVision that able to help us implement a complete ERP system to help us spur our company to another level "

- Elaine

happy users

Carigali PTTEPI Operating Company (CPOC)

CPOC was looking for Employee Self Service Portal for eLeave, eClaim, Business Travel Request, eTraining and eProfile. We have successfully implemented Off-the-shelf MecWise ESS with customisation tailored to CPOC's requirement. And we have implemented seamless integration to CPOC's SAP HR for personal profile updates and SAP Finance for Claims and Reimbursement posting.

With the successful implementation of ESS Portal, HR has seen a lot of enquiries from employees on Leave balance, leave history, claim status, etc. And the main key benefit is, MecWise eClaim system help to reduce the turn-around-time of claim processing. Hence, HR and Finance achieved higher efficiency of work.

Solar Alert Sdn Bhd

As part of expansion, Solar Alert see the importance to automate and streamline some of its business processes. With that ambition, Solar Alert has successfully implemented full fledge MecWise ERP system for their Finance and HR operation. With the successful implementation of MecWise ERP, it enables the management to see clearly our business performance, analyze and change business processes and to make us become more competitive.

Pertubuhan Keselamatan Sosial (PERKESO)

The Social Security Organisation (SOCSO) was established as one of the government departments under the Ministry of Human Resources. Since incorporation of SOCSO, there are number of functional modules implemented to support the HR operation and management SOCSO personnel.

Pembangunan Sumber Manusia Berhad (PSMB)

Another agency under MOHR. Together with HRDF2.0 implementation. MecWise HRMS and MecWise Financial was being implemented with seamless integration to HRDF Core system (eTris). Handles full fledge of HR operation and financial functions.

Syarikat Bekalan Air Selangor (SYABAS)

Implemented full spectrum of MecWise HRMS. During the consolidation of SYABAS with subsidiaries. To support the rapid growth from 2500 to 4000 employees with the period of two years.

Environment Idaman Sdn Bhd

Environment Idaman has been awarded the concessionaire to take over the garbage collection service from Kedah State. With that, the management sees the importance of having an efficient HRMS system in order to smoothly take over the state government task force within short period of time. Especially during the transition.

With the implementation of MecWise HRMS solution, Environment Idaman managed to overcome the challenge of taking over the state government task force.

Agensi Inovasi Malaysia (AIM)

As part of exercise to comply with GST requirement and SAGA compliance, AIM has adopted MecWise Financial and eClaim to handle the Financial function and Management Reporting to Account General.
